

**European Center for Quality Ltd. (ECQ)** is a modern and innovative consulting company established in 2001. The company is specialized in: development and management of **EU funded projects**; elaboration and implementation of **International Standards for Quality Management**; **consulting services** to the Bulgarian SMEs with regard to increasing their own competitiveness and productivity; **business analyses** and **marketing surveys**; preparation of **reports** for different economic sectors or companies.

The 10-year professional consultancy experience **in cooperation with** business unions, municipalities, enterprises, consulting companies, educational and university institutions, training centres, NGOs, etc. contributes to the company's promotion as a reliable partner. Thanks to its **qualified and experienced employees** and using the **rich international experience and know-how** of its partners, European Center for Quality Ltd. provides highly professional consulting assistance to its clients. Moreover, ECQ aims at constantly expanding the range of its activities in accordance to the dynamic changes in the global economy of XXI century.

**European Center for Quality Ltd.** has developed and implemented a large number of projects under the following **EU programmes**:

- ✓ Operational Programme “Development of the Competitiveness of the Bulgarian Economy 2007 – 2013”
- ✓ Operational Programme “Regional Development”
- ✓ PHARE Programme “Competitiveness”, “Cross-Border Cooperation”
- ✓ PHARE Programme “Bulgarian Eco-Tourism Development”
- ✓ Lifelong Learning Programme
- ✓ Intelligent Energy Europe Programme, etc.

The company is exclusively focused on the coordination and implementation of projects under Lifelong Learning Programme, as it develops and participates in a number of **Leonardo da Vinci projects** (Transfer of Innovation, Partnership, Mobility, Development of Innovation), **Grundtvig Partnerships** and **Multilateral projects**. ECQ has also a successful background in the performance of projects under Intelligent Energy Europe Programme.
